NEW VFR CPD OFFERING NOW AVAILABLE

CBV Institute has partnered with CPA Canada to deliver CPD related to VFR in a public-reporter context. This CPD offering arose from a concern expressed by key stakeholders that financial professionals should have a foundational level of understanding in VFR, and the offering serves the Institute's mission to benefit the public interest. This online, on-demand program provides 16 hours of quality point-in-time continuing professional development.

The FASB received nearly 100 comment letters on its ITC on how to account for certain identifiable intangible assets acquired in a business combination. The comment letters ([viewable here](#)) represent a broad range of respondents such as corporates from almost every sector, accounting and valuation firms, societies, consultants, individuals, and educational institutions.

Members of the valuation profession have serious concerns over going back to a model that treats goodwill as a wasting asset. To see some of their concerns, and for more information on the comment letters received, [click here](#).
